# **Oversea-Chinese Banking Corporation Limited**

Pillar 3 Disclosures (OCBC Group – As at 31 December 2013)

#### 1. INTRODUCTION

The purpose of this document is to provide the information in accordance with Pillar 3 directives under Monetary Authority of Singapore ("MAS") Notice 637 on Risk Based Capital Adequacy Requirements for banks incorporated in Singapore. MAS Notice 637 mandates a minimum level of public disclosures to be made available to market participants to assist them in assessing the capital adequacy and risk profile of a bank.

Further disclosures on the Group's capital and risk management objectives and policies are presented in the Notes to the Financial Statements, as well as in the Risk Management and Capital Management sections of the Financial Statements for the year ended 31 December 2013. Disclosures on Remuneration will be provided in the Corporate Governance section of the 2013 Annual Report.

#### 2. ACCOUNTING AND REGULATORY CONSOLIDATION

The consolidation basis used for regulatory capital computation is similar to that used for financial reporting except for the following:

- Subsidiaries that carry out insurance business are excluded from regulatory consolidation and are treated as investments in major stake companies. The regulatory adjustments applied to these investments are in accordance to MAS Notice 637 paragraphs 6.1.3(p), 6.2.3(e) and 6.3.3(e).
- As at 31 December 2013, the subsidiaries that carry out insurance business are as follows:
  - The Great Eastern Life Assurance Company Limited and its insurance entities
  - The Overseas Assurance Corporation Limited and its insurance entities
- As at 31 December 2013, the total equity of these insurance subsidiaries was S\$5b and total assets were S\$59b.

The basis of consolidation for financial reporting can be found in Note 2.2 in the Notes to the Financial Statements for the year ended 31 December 2013.

#### 3. CAPITAL ADEQUACY

Disclosures on the Group's capital adequacy ratios and the capital positions for the Group's significant banking subsidiaries as at 31 December 2013 are presented in the Capital Adequacy Ratios section of the Fourth Quarter 2013 Financial Results. (http://www.ocbc.com/group/investors/index.html)

Disclosures on the composition of the Group's regulatory capital, including reconciliation between balance sheet and regulatory capital elements, as well as terms and conditions and main features of capital instruments can be found under the Capital and Regulatory Disclosures sections of the Bank's investor relations website. (<a href="http://www.ocbc.com/group/investors/Cap">http://www.ocbc.com/group/investors/Cap</a> and Reg Disclosures.html)

# 4. CREDIT RISK

#### 4.1 Maximum Exposure to Credit Risk

| S\$ million                                      | Period End Average <sup>(3</sup> |         |  |
|--|----------------------------------|---------|--|
| Credit risk exposure of on-balance sheet assets: |                                  |         |  |
| Net loans and bills receivable                   | 167,854 <sup>(1)</sup>           | 155,224 |  |
| Placements with and loans to banks               | 39,573                           | 33,737  |  |
| Government treasury bills and securities         | 20,611                           | 21,506  |  |
| Debt securities                                  | 16,006                           | 14,942  |  |
| Assets pledged                                   | 2,110 <sup>(2)</sup>             | 2,113   |  |
| Others   | 7,960                            | 7,991   |  |
|  | 254,114                          | 235,513 |  |
| Credit risk exposure of off-balance sheet items: |                                  |         |  |
| Credit commitments                               | 76,199                           | 72,390  |  |
| Contingent liabilities                           | 12,197                           | 10,290  |  |
|  | 88,396                           | 82,680  |  |
| Total maximum credit risk exposure               | 342,510                          | 318,193 |  |

Net of specific allowances of S\$230 million and portfolio allowances of S\$1,511 million.

# 4.2 Geographic/Industry Distribution of Major Types of Credit Exposure

# Gross Loans and Bills Receivable (1)

#### **Analysed by Geography**

|                    | S\$ million |
|--------------------|-------------|
| Singapore          | 83,920      |
| Malaysia           | 25,257      |
| Indonesia          | 11,890      |
| Greater China      | 27,183      |
| Other Asia Pacific | 8,357       |
| Rest of the World  | 13,013      |
|                    | 169,620     |

Distribution by geography is determined based on where the credit risk resides.

Assets pledged comprise net loans and bills receivable of S\$25 million, placements with and loans to banks of S\$793 million, government treasury bills and securities of S\$250 million and debt securities of S\$1,042 million. Computed on a monthly average basis.

<sup>(1)</sup> Includes assets pledged of S\$25 million.

<sup>(1)</sup> Refers to Credit RWA for exposures to central clearing houses that act as the intermediary for counterparties to contracts traded in financial markets

<sup>&</sup>lt;sup>(2)</sup> Refers to Credit RWA for adjustments to the mark-to-market valuation of the Over-the-Counter (OTC) derivatives with a counterparty

<sup>(3)</sup> Refers to Credit RWA for Total Investment in Unconsolidated Major Stake Companies within the prescribed threshold amount in accordance with MAS Notice 637 paragraph 6.1.3 (p)(iii)

#### 4.6 Credit Exposures under Standardised Approach

Credit exposures under the standardised approach comprise mainly exposures to sovereigns, private banking customers in Bank of Singapore and fixed assets. Rated exposures relate mainly to debt securities and sovereign portfolios while unrated exposures relate mainly to individuals and fixed assets.

|                   | EAD         | RWA         |
|-------------------|-------------|-------------|
| Risk Weight       | S\$ million | S\$ million |

| Rated exposures   | 42,820      | 7,869       |
| Unrated exposures | 13,056      | 11,236      |

# 4.7 Credit Exposures subject to Supervisory Risk Weights under Internal Ratings-Based Approach

# Equity Exposures under IRB Approach (1)

Equities for regulatory capital computation are risk weighted and/or deducted from capital in accordance with MAS Notice 637 under IRB Approach. Equity exposures of S\$6 million have been deducted from regulatory capital.

**IRB Approach** 

|                       | (SRW)                      |      | (PD/LGD)    |                        |

<sup>(1)</sup> As of 2013, Equity Exposures are reported under the IRB approach using Simple Risk Weight (SRW) and PD/LGD methods.

# **Specialised Lending Exposures under Supervisory Slotting Criteria**

Specialised lending exposures include financing of income-producing real estate as well as project, object and commodity finance.

|              | EAD         | Average     |
|--------------|-------------|-------------|
|              | S\$ million | Risk Weight |
| Strong       | 8,005       | 60%         |
| Good         | 9,663       | 83%         |
| Satisfactory | 5,584       | 122%        |
| Weak         | 972         | 265%        |
| Default      | 203         | NA          |
| Total        | 24,427      | 91%         |

# 4.8 Credit Exposures under Foundation Internal Ratings-Based Approach (F-IRBA)

Corporate exposures are mainly exposures to corporate and institutional customers as well as major non-bank financial institutions. Bank exposures are exposures to banks and eligible public sector entities.

#### **Corporate Exposures**

|                | EAD         | Average     |

# 4.9 Credit Exposures under Advanced Internal Ratings Based Approach (A-IRBA)

Residential Mortgages are loans to individuals secured by residential properties. Qualifying Revolving Retail exposures are revolving unsecured loans to individuals e.g. credit cards. Small Business exposures include lending to small businesses and commercial property loans to individuals in Singapore and Malaysia. Other Retail exposures are mainly auto loans in Singapore.

# 4.10 Actual Loss and Expected Loss for Exposures under Foundation and Advanced IRB Approach

Actual loss refers to net impairment loss allowance and direct write-off to the income statement during the year. Expected loss ("EL") represents model derived and/or regulatory prescribed estimates of future loss on potential defaults over a one-year time horizon. Comparison of the two measures has limitations because they are calculated using different methods. EL computations are based on LGD and EAD estimates that reflect downturn economic conditions and regulatory minimums, and PD estimates that reflect long run through-the-cycle approximation of default rates. Actual loss is based on accounting standards and represents the point-in-time impairment experience for the financial year.

|                | Actual Loss                                 | Regulatory Expected Loss               |

| Equity position risk  | 41          |
| Foreign exchange risk | 523         |
| Commodity risk        | 1_          |
| Total                 | 1,271       |

#### 6. EQUITY EXPOSURES IN BANKING BOOK

Disclosures on valuation and accounting treatment of equity holdings can be found in Notes 2.2.3, 2.6.2 and 2.23.3 in the Notes to the Financial Statements for the year ended 31 December 2013.

Equity exposures comprise equity securities categorised as "Available-for-sale" (AFS) and investments in associates and joint ventures. AFS securities are carried at fair value in the balance sheet of the Group while investments in associates are carried at cost and adjusted for post-acquisition changes of the Group's share of the net assets of the associates and joint ventures.

Equity exposures categorised and measured in accordance with Singapore Financial Reporting Standards differ from the regulatory definition under MAS Notice 637 in the following key areas:

- 1. Equity investments held by insurance subsidiaries (included below) are not consolidated for regulatory computation.
- 2. Debt instruments approved for inclusion as Tier 1 capital are treated as equity exposures under MAS Notice 637.

#### **Carrying Value of Equity Exposures**

|                                       | S\$ million |
|---------------------------------------|-------------|
| Quoted equity exposure - AFS          | 2,862       |
| Unquoted equity exposure - AFS        | 463         |
| Quoted equity exposure - Associates   | -           |
| Unquoted equity exposure - Associates | 380         |
| Total                                 | 3,705       |

#### **Realised and Unrealised Gains and Losses**

|   | S\$ million |
|---|-------------|
| Gains/(losses) from disposal of AFS equities    | 80          |
| Unrealised gains included in fair value reserve | 500         |
| Total   | 580         |

#### 7. INTEREST RATE RISK IN THE BANKING BOOK

A description of the nature of interest rate risk in the banking book and key assumptions made by the Group can be found in Note 39.3 in the Notes to the Financial Statements for the year ended 31 December 2013.

Based on a 100 bp parallel rise in yield curves on the Group's exposure to major currencies i.e. Singapore Dollar, US Dollar and Malaysian Ringgit, net interest income is estimated to increase by S\$408 million. The corresponding impact from a 100 bp decrease is an estimated reduction of S\$153 million in net interest income. As a percentage of reported net interest income, the maximum exposure for the three major currencies is estimated to be approximately -3.9%.
